

# Beaver Creek Reserve's Earth Week Challenge

## At-Home Science Fair Rules

Be a part of Beaver Creek Reserve's Earth Week Challenge! Join us in celebrating science and the wonders of at-home learning to help us find solutions to many of Earth's challenges.

One way to participate in the Earth Week Challenge is our At-Home Science Fair. The At-Home Science fair is open to all ages. We encourage everyone to use household items you already have, no need to purchase anything new. To take part in this challenge you need to create your science project, make a video or take a picture, and give us a description of the steps you took. Qualifying projects will receive 10 points for the Earth Week Challenge. Top 5 projects will receive an additional 2 points!

### Rules

- **Submit your project by *Thursday, April 22<sup>nd</sup> at Midnight***
- Only one submission per Earth Week Challenge Team or Household
- At least 50% of your materials must be recycled/reused. Try to use items around your house - do not purchase new materials!
- Submit pictures or a video (3 minute limit), and a description of your project that answers the following questions:
  1. What is your hypothesis?
  2. What is your conclusion?
  3. What recycled/reused materials did you use?

To qualify for the At-Home Science Fair, you must follow all the rules listed above. Once you have completed all steps, follow the directions below to submit your project online.

### How Do I Submit?

Go to: [https://www.beavercreekreserve.org/events/earth\\_week\\_challenge/](https://www.beavercreekreserve.org/events/earth_week_challenge/)

Look for the link for the Earth Week Challenge Registration and submit all the items needed to receive your points.
